4th International Conference on

**Packing Problems**

**June 3-7, 2019**

**Yale University, New Haven, CT**

Packaging and flows in granular media, packings of non-spherical particles, unjamming and jamming, metallic and colloidal glasses, gels, droplets, foams, emulsions, tissue morphogenesis, cell packing in tumors, protein structure

**Invited speakers:**
- **Adrian Baule**, Queen Mary University of London
- **Max Bi**, Northeastern University
- **Jasna Brujic**, New York University
- **Otger Campàs**, University of California, Santa Barbara
- **Bulbul Chakraborty**, Brandeis University
- **Patrick Charbonneau**, Duke University
- **Ke Chen**, Institute of Physics, Chinese Academy of Sciences
- **Eric Corwin**, University of Oregon
- **Gary Delaney**, Commonwealth Scientific and Industrial Research Organization
- **Karen Daniels**, North Carolina State University
- **Sharon Glotzer**, University of Michigan
- **Hisao Hayakawa**, Kyoto University
- **Silke Henkes**, University of Bristol
- **Claus Heussinger**, University of Gottingen
- **Sascha Hilgenfeldt**, University of Illinois, Urbana-Champaign
- **Scott Holley**, Yale University
- **Lilian Hsiao**, North Carolina State University
- **Stefan Hutzler**, Trinity College of Dublin
- **Yuliang Jin**, Institute for Theoretical Physics, Chinese Academy of Sciences
- **Josef Käs**, Leipzig University
- **Shuixiang Li**, Peking University
- **Jie Liang**, University of Illinois Chicago
- **Wolfgang Losert**, University of Maryland
- **Tom Mason**, University of California, Los Angeles
- **Narayanan Menon**, University of Massachusetts, Amherst
- **Adil Mughal**, Aberystwyth University
- **Michio Otsuki**, Shimane University
- **Srikanth Sastry**, Jawaharlal Nehru Centre for Advanced Scientific Research
- **Gerd Schroeder Turk**, Murdoch University
- **Jan Schroers**, Yale University
- **Matthias Schroter**, Max Planck Institute for Dynamics and Self Organization
- **Mark Shattuck**, City College of New York
- **Ishan Srivastava**, Sandia National Laboratories
- **Daniel Sussman**, Syracuse University
- **Stephen Teitel**, University of Rochester
- **Yujie Wang**, Shanghai Jiao Tong University
- **Ning Xu**, University of Science and Technology of China

**Organized by Prof. Corey S. O’Hern**, Departments of Mechanical Engineering & Materials Science, Applied Physics, Physics. Contact: corey.ohern@yale.edu

**Sponsored by:**
National Science Foundation, Army Research Office, Department of Mechanical Engineering & Materials Science, School of Engineering & Applied Science, Integrated Graduate Program in Physical and Engineering Biology, Raymond and Beverly Sackler Institute for Biological, Physical, and Engineering Sciences.
